I requested the CD from Harry and hopefully I'll have it by the end of this week.

The letter that you attached to your email is interesting. It shows that, as late as 2002, EPA and the Navy still had not agreed on a PRG for Hunters Point, and might not even have yet settled on the appropriate risk level (e.g.,  $10^{-4}$ ) at which the PRG should be established.

I wonder if this would have some of the information that we're looking for. Could you please copy the CD from Harry?

**Subject:** Could you give the CD to Rob Terry? FW: HP

Dear Harry,

I will be at NARPM next week. But in the mean time, could you give the CD to Rob Terry in case he has time next week to search? I'd appreciate it!

Thanks!

- Lily

The only file I have in my notes ... I never got his other files and assumed that they went to Rob Terry. I do have a CD with his Lotus Notes files if you want to make a copy. There is a lot there but most of the attachments from those days are WordPerfect documents so it would take some work.
